

## “Advanced topics of key bacterial pathogens”

Date: 17<sup>th</sup> of January 2017,

Workshop Venue: Semmelweis University, Budapest, Hungary

**1089 Budapest, Nagyváradi tér 4. XXI. emelet Johan Béla terem**

### *Preliminary program*

#### ***Morning Session***

**09:00-09:30<sup>h</sup>**

**Sylvain Brisse** (Institut Pasteur, Paris, France):  
*Pathogenesis and virulence of Klebsiella spp.*

**09:30-10:00<sup>h</sup>**

**Ákos Tóth** (National Center for Epidemiology, Budapest, Hungary):  
*Virulence and resistance mechanisms of non-fermenting Gram-negative bacteria*

**10:00-10:30<sup>h</sup>**

**Endre Ludwig** (Joined Saint Stephan and Saint Ladislaus Hospital-Clinic, Budapest, Hungary)  
Antibiotic therapy in the age of multiresistant bugs – a clinician’s approach

**10:30-11:00<sup>h</sup>**

**Liudmila Kraeva** (Institut Pasteur, Saint Petersburg, Russia)  
*Causative agents of diphtheria and whooping cough and immunity to them. The modern state of laboratory diagnostics.*

**11:00-11:30<sup>h</sup>**

**Miklós Füzi** (Semmelweis University, Budapest, Hungary)  
*Dissimilar fitness associated with resistance to fluoroquinolones influences clonal dynamics of various multiresistant bacteria.*

**11:30-12:30<sup>h</sup>**

**LUNCH BREAK**

***Afternoon Session***

**12:30-13:00<sup>h</sup>**

**Eszter Ostorházi** (Semmelweis University, Budapest, Hungary)

*Emerging azithromycin resistance in Neisseria gonorrhoeae strains in Hungary*

**13:00-13:30<sup>h</sup>**

**Katalin Kristóf** (Semmelweis University, Budapest, Hungary)

*Antibiotic resistance in Gram-positive bacteria*

**13:30-14:00<sup>h</sup>**

**Orsolya Dobay** (Semmelweis University, Budapest, Hungary)

*Pneumococcal serotypes in Hungary, 2009-2015*

**14:00-14:30<sup>h</sup>**

**Zsófia Mészner** (National Institute of Health Development, Budapest, Hungary)

*Pneumococcal vaccination in Hungary*
