TRIALS DAY

**MAY 15<sup>th</sup> 2018**

# CLINICAL TRIALS & INNOVATION

**BUDAPEST  
HUNGARIAN  
ACADEMY  
OF SCIENCE**

Dear friend,

The European Clinical Research Infrastructure Network (ECRIN) would like to invite you to a conference in Budapest, Hungary on May 15th, 2018 to celebrate International Clinical Trials Day (ICTD). The theme of this year's event is clinical trials and innovation.

ICTD 2018 will bring together around 150 stakeholders including ECRIN's internal stakeholders and partners, and additional scientists and policymakers from Hungary and internationally.

The meeting objective is to engage diverse stakeholders in discussion, supported by a case study, on the clinical research landscape and challenges in Europe, with a focus on clinical trials and innovation. We hope to see you there.

Sincerely,

Jacques Demotes
